Pavimentos ou revestimentos impressos em betão ou argamassas

Pavimento impresso, de base em betão ou argamassas, com diferentes tipos de acabamento na impressão, com aplicação sobre suportes compactados ou estruturais horizontais ou verticais.

Características.

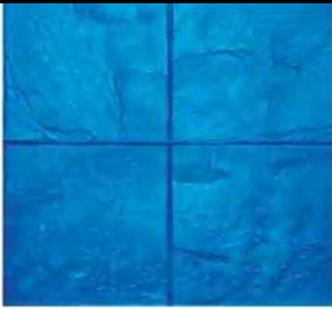

Pavimento impresso é um sistema, interior e exterior que consiste em um conjunto de artigos, desde a preparação inicial do suporte, em várias cores e vários tipos de moldes para acabamento final, com características de alta resistência, decorativas e de grande durabilidade, de espessuras variadas em sistemas novos e de reabilitação, que depois de aplicado e moldar a superfície se torna ideal para acabamento arquitetônicos em pavimentos, para circulação pedonal ou automóvel, adequado para zonas habitacionais, praças parques, zonas de estacionamento e zonas públicas.

- Estético anti deslizante.
- Decorativo, cores e com variado tipo de impressão.
- Quebra aparência de uma superfície uniforme lisa.
- Aumento da resistência ao envelhecimento.

Estética.

Escolha de moldes e cores pode ser de acordo com as necessidades do seu projeto.
